

MASS VISION
Trading Company L.L.C

BUSINESS PROFILE

Our insistence on quality and a love of detail is what brings all our energies into focus together.

Keeping pace with time and technology, Mass Vision has evolved into a significant High-tech furniture provider in the Middle East. Since the beginning, we have provided safe, reliable, unique designs and cost-effective furniture solutions in all fields.

Our performance characteristics are uniquely defined by our work culture which begins with four values: **Trust, Talent, Innovation, and Passion.**

By recognizing that our customers work in a dynamic environment and that they need more than just products, several innovative solutions have been introduced by the company to enhance customer service experience. By remaining close to our customers, we have the vision to foresee the challenges ahead, and we transform these challenges into success by helping our clients rise above them. This is our promise to you, and this is the future we are succeeding to shape.

SUMMARY OF SERVICES

- Mass Vision is one of the Middle East's leading furniture Supplier.
- Thanks to continuous innovative development, consistent investments and market-oriented products, Mass Vision stands for quality and expertise. Our customers know that they are in good hands and can always rely on the very best solutions!
- Many of our products from international suppliers are tested by the Thuringia TÜV office (Technical Inspection Agency). We will be glad to send you copies of the relevant certificates if required.
- Our broad product range, which is continuously updated, offers customer-oriented solutions for almost every application area and every budget. From the staff workstation through to the management level. From the office or archive to the storage room and workshop and even through to Locker rooms, changing rooms, and fitness and wellness areas.

“Furniture is meant to be used & enjoyed”

Natalie Morales

CHAIRMAN'S MESSAGE

Our mission statement **Furniture for People** is a promise. People first, products second.

We are curious to discover more about people, their goals and wishes, their responsibilities and duties.

We are inspired by the diversity we encounter, and we explore how we can help people in as many different parts of their lives as possible. Our mission is defined by the answers we receive. They are our inspiration for a whole host of new ideas that enable us to help people in their work.

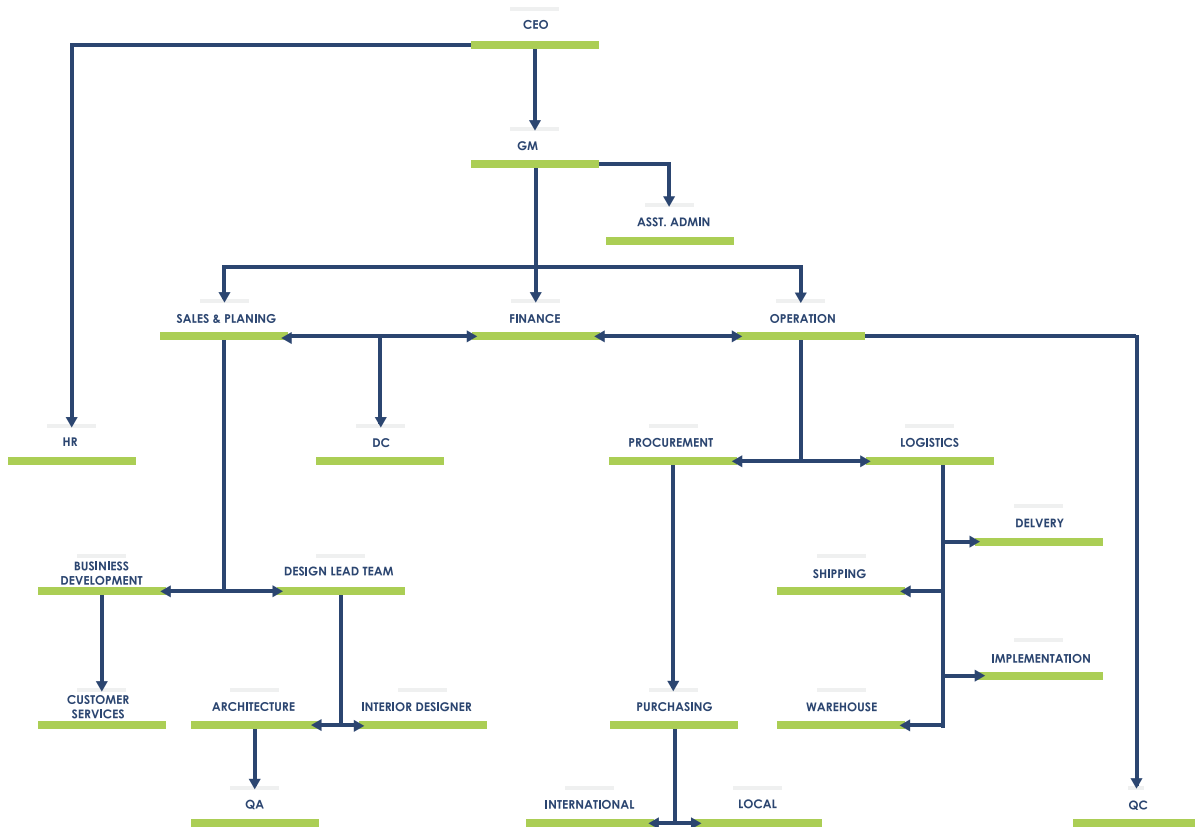

This fundamental principle is just as central to our dealings with each other in the company. Together, we are successful because we help each other. Along with our partners, we embrace new challenges.

We are well aware in the kingdom of the importance of having partnered with expertise and ability to provide high-quality products and who are internationally recognized and enjoys the trust of customers. In this respect we are putting many efforts to evaluate and select business partners of high quality that makes us confident and proud of the team of partners that we have succeeded in working with, they are the most well-known and leading in their fields of business, most of them are actively working with us for a long time. Mass Vision network of suppliers is so big and divers; thus we are covering all parts of the world extending from America to Europe and Asia.

PROCESS TIMELINE

WEEK 1

Design

WEEK 2

Design Development

Material Selection

WEEK 3

Once we receive your request for quotation (RFQ), our technical sales team and designers will review the requested line items and work on commercial and technical proposals that shall match your requirement. We'll get straight to work and prepare the needed information for the design. Getting to know you and exploring your tastes: learning what you like, what inspires you, both for who you are now, and whom you want your environment to support you in becoming. We refine the nuts-and-bolts parameters of the project in terms of defining your specific

needs and details, whether this is space planning, lifestyle needs, or personal desires. In the design stage, as the professionals you need us to be, we are considering what level of adventure will serve you. We are calibrating our design inspirations to your range.

There is an edge where the adrenaline rises. The fear of the unknown is balanced by the excitement of surprise, and the reward for pushing that edge, just enough and not too much, is discovering and getting to live in a new beauty and functionality beyond what you could have

WEEK 4

WEEK 5

WEEK 6

Shipping and Installation

imagined or would have created if you had stayed within what was familiar.

During this phase, we show you options. We arrange one (or several) meeting(s) and present you with well developed and different sets of ideas for your space(s). 3D rendering, created during phase 2 for a client, is remarkably close to the final look. After developing the design, furniture and material selection will take place. (Please keep in mind that some material samples will require time for shipping from the factories).

Customers will receive an order confirmation via email on all submitted orders. It is the customers responsibility to review the order for accuracy and report any discrepancies in the product, quantity, shipping information, etc. Inaccuracies must be reported within 24 hours of order placement.

Our current lead time for production is six weeks. This can change slightly throughout the year, so please be sure to confirm with us if you are trying to hit a specific date. We will do our best to accommodate you!

OUR PRODUCTS

Our products in different versions, shapes, and colors blend in harmoniously in different environments and offer every user the right solution.

#1 Desks

Executive Desks, Work Stations Single, Multi and Team, Height Adjustable Desks, Reception Desks, Meeting Tables, Kitchen and Lounge Coffee Tables.

it is important that the employed tables are not only functional but also ergonomic in order to promote movement in the workplace and thus prevent health problems. Height-adjustable desks and standing and sitting tables from our suppliers are easy to adjust manually or are electrically height-adjustable, depending on their mechanism. Discover our wide range and find the optimal desks!

#2 Sofas

Directly changing the atmosphere of the room where it is used, the sofa series highlight the high quality workmanship from design details to material choices. In addition to fabric and leather alternatives, the sofas which can be varied with different color alternatives open the doors of an elegant appearance.

#3 Chairs

Dynamic Swivel Chair for Agile Working, Task Chairs, Executive Chairs, Lounge Chairs Ergonomics and Design.

Our versatile range of seating options has elegant and ergonomic solutions for all types of premises, Changing working positions during the day is essential for both employee well-being and job satisfaction. Well-designed workstations and work environments keep their users active. Developed with high-level engineering systems and offering an ergonomic seating experience to its user with a simple design concept, the working chairs do not compromise the comfort level even for long periods of sitting. Armrest adjustment, lumbar support, depth-adjusted session and an adjustable height of the user freedom of movement with our work chairs, a wide range of products to meet the user.

#4 Storage and Lockers

In addition to its large storage volume, the storage units, which are developed in innovative and original forms, meet its users in a wide range of products for their workspace. We offers stylish solutions to the storage needs of its workspaces with its diversified alternatives in different sizes and specifications. Designed to provide accessibility and maximize storage capacity.

#5 Acoustics

- Acoustic & Partition
- Green Walls
- Planters
- Water Falls
- Mobile Partitions
- Stand-alone Acoustic Wall
- Acoustic Wall & Ceiling Covering

#6 Partitions and Designed Glass Partitions

It is a modular system that creates and configures areas at different heights providing endless design possibilities to adapt their work areas to whatever they need. Divided office helps to reduce noise, create confidentiality & work efficiently. The frameless structures of the glass partitions systems allows for building impressive and very sturdy structures in large open spaces and spaces that are more challenging, where the setup utilizes the structures that are already on-site.

The partition system can be used to construct modern, modifiable, high-quality and spacious work and conference rooms. The partitions allows natural light to pass through. The thick glass elements dampen noises effectively and with distinctive designs stickers on top of the glass looks amazed.

#7 CONTROL ROOMS

Our control room consoles and technical furniture is designed to your exact requirements. All control room furniture offers a 10-year guarantee and wherever possible, we also offer a range of carefully balanced high-quality accessories for your control room, to improve your working environment. We design and supply high quality bespoke consoles which are modern and adaptable for control rooms of all environments, including security, air traffic, plant & process, transport and broadcast environments. Our console is a proven and durable workstation for 24/7 work environments. Designed for optimal comfort, the console incorporates ergonomic & technological features to seamlessly adapt to the operator workflow.

#8 Executive Offices

For a management office, prestigious office furniture is required which stands out due to its elegant design as well as its ergonomic comfort. We offer standing and sitting tables which encourage the change of posture and provide space for communication right near the workstation.

Combined with elegant swivel armchairs and task chairs, executive offices can be furnished to enable quick alternation between focused individual work and meeting situations with employees and business partners in a pleasant atmosphere. Discover our wide office furniture range and choose from different tabletops and tops as well as frames to furnish your management office.

#9 Lounge Areas

It is no longer unusual to have a sofa in the office. Many companies nowadays provide cozy seating areas. But that alone is not enough if you also want to boost the productivity of your employees. Mass vision has, therefore, created something completely new with ergonomic and multifunctional upholstered furniture to make people feel at home in the office. But leaving no doubt that it has been designed for working. Alone and in a team. Thanks to its modules, tables and power supply options, our furniture provides unlimited combinations for all kinds of use while creating a flexible office environment. As a shielded retreat for confidential conversations or for concentrated work, through to dynamic team meetings and informal get-togethers. You can choose a standard formation such as a circle, S-shaped, face-to-face or bench, or your own individual layout. Appropriate feel-good islands or entire landscapes can be created in any office.

#10 Kids Rooms

Kids have a lot of work to do - like developing who they are, discovering the world and then starting their journey to independence. So having the right things at home can make it a little easier. From the day you bring them home until they're almost all grown up, our children's furniture will help you turn your home into the best possible playground!

#11 Accessories

(Curtain & Rugs ..etc.)

Round, plush, square, or fluffy. We love rugs equally for their ability to liven up a room and because they make things so cozy. Not to mention they can help create a sense of definition in your space, and they're even sound-absorbing. Whichever one you choose, rugs are an essential part of any room.

#12 Kitchen & Appliances

Aesthetic design combined with innovative technology results in unique items – more than just simple appliances they are decorative items.

A wide range of excellent solutions to meet everyday cooking, extraction, food storage, and washing needs.

#13 Educational Furniture

In addition to education, students need other support, too: chairs and desks with plenty of adjustment margin. A properly adjusted seat will support the back and when the table is of the correct height, it is comfortable to read and write. We offer a great selection of classroom and school furniture including desks, chairs, play equipment, library furniture, indoor/outdoor bleachers, lockers, and cafeteria tables.

#14 Pouf Seats

Effortlessly add comfort and convenience to any space with modern poufs.

#15 Phone Booth

Quiet zones in demanding, buzzing offices spaces- our acoustic booths perform well even in the most dynamic spaces. Thanks to the compact construction and ergonomic form of a phone booth, it will work in an even small room. The booth ensures space for phone conversations and creates ideal environment that improves concentration and guarantees privacy in noisy open space.
